

JEZ XYREL K. OLPOC

COMPUTER ENGINEER

+63 961 894 0096 | jezxyrel1@gmail.com | Cebu City, Philippines | github.com/j1nsol | linkedin.com/in/jez-olpoc

PROFESSIONAL SUMMARY

Motivated Computer Engineer and fresh graduate from CIT-University with hands-on experience in UI/UX design, full-stack web development, and hardware systems. Recently completed a Product Design internship designing web mockups and marketing materials. Proficient in React, Firebase, and C#, with a track record of shipping real projects — and an active campus leader with strong initiative and a collaborative work ethic.

TECHNICAL STACK

Languages	C, C++, C#, JavaScript, TypeScript, Python, HTML5, CSS3
Frontend	React.js, Next.js, Tailwind CSS
Backend & Databases	Node.js, Express.js, Firebase, Appwrite, MySQL, SQLite
AI & Automation	OpenAI API, Anthropic API, Claude Code, n8n
Embedded & IoT	Arduino, Logic Gates, Mixed Signal Systems, VHDL (learning)
Support & eCommerce	Jira, Shopify, CRM / Helpdesk, Ticketing Systems
DevOps & Tools	Git, GitHub, VS Code, Visual Studio, Test Automation
Design & Prototyping	Figma, Canva, AutoCAD, SketchUp, Packet Tracer
Productivity	Microsoft 365, Google Workspace, Notion

WORK EXPERIENCE

Product Design Intern June 2025 – July 2025
Rural Net Inc. — Cebu City

- Designed UI/UX web mockups to improve user experience across client-facing products.
- Produced marketing materials including social media graphics, banners, and promotional content.
- Collaborated with the team to align all designs with brand identity guidelines.

Computer Technician June 2020 – February 2022
TOJE Internet Cafe — Kananga

- Diagnosed and repaired hardware and software issues; performed routine system maintenance.
- Managed installations, updates, and network connectivity for the entire cafe.
- Provided technical support to customers and maintained optimal workstation performance.

PROJECTS

AI-Powered Smart Parking System — Capstone Thesis 2025 – 2026
Camera-based smart parking system with a real-time web app for slot availability. Built the React + Vite frontend (Leaflet map, SVG slot view) and a Firebase real-time layer syncing edge detections to drivers and an admin dashboard. Integrated YOLOv8n with DBSCAN auto-mapping for slot discovery on a Raspberry Pi, and wrote automated tests to validate detection and slot-mapping behavior.

ANITA-Maxwin — Collaboration Platform 2025
Community-driven platform built with React.js and Firebase where users create and join events and earn tokens through participation. Designed the architecture, backend, and database.

GearFolio — Academic Portfolio Platform 2025
AI-powered portfolio and project showcase for CIT-U Computer Engineering students. Contributed to the Next.js + Appwrite frontend and built server-side rendered (SSR) authentication.

EDULINK — Educational Management Platform 2024
Web-based platform built with React.js (TypeScript) and Firebase supporting enrollment, scheduling, and grading. Handled backend services and database design.

Carousell Scraper — Python Personal Project
Built a Python web scraper to collect and organize Carousell marketplace listings for a friend, automating a previously manual lookup process.

EDUCATION

BS in Computer Engineering Aug 2022 – May 2026
Cebu Institute of Technology – University • Cebu City, Philippines

CAMPUS INVOLVEMENT

Assistant Head of Sports & Cultural Committee, ICEP SE CIT-U Chapter	2025 – 2026
Assistant Head of Events, Wildcats Esports League	2024 – 2025
Head of Community Engagement, Wildcats Esports League	2024 – 2025
Head of Events, Wildcats Esports League	2023 – 2024

CORE STRENGTHS & REFERENCE

Strong Work Ethic • Leadership & Initiative • Adaptability & Flexibility • Communication • Organizational Skills • Integrity & Professionalism
